

Developing Consistency in ITS Safety Solutions – Intersection Warning Systems
Workshop #1 Agenda
July 28-29, 2011
Best Western – Bloomington, MN

Purpose – Project and Workshop #1

Bringing together organizations that have developed and deployed intersection warning systems, the purpose of this project is to develop a consistent approach for accelerated, uniform deployment and further evaluation of intersection warning systems, and to recommend preliminary standards for MUTCD consideration. This work will be initiated through a webinar and two in-person workshops. Participants will include ENTERPRISE pooled fund states, other states that have deployed systems, FHWA, NCUTCD, AASHTO and NACE.

The focus of Workshop 1 is to **discuss the content of a preliminary standard** building off the challenges identified during Webinar 1 and **to develop a roadmap for reaching standardization**. For example, further evaluation of these systems will likely be needed before complete standards can be recommended for the MUTCD. The roadmap will identify gaps in information needed to develop complete standards.

Agenda – Day 1

10:00 – 10:30	Welcome and Introductions
10:30 – 11:30	Review challenges for deploying intersection warning systems
11:30 – 12:30	Discuss Standard Area 1 – Function
12:30 – 1:30	Lunch at RedRossa (in hotel)
1:30 – 2:30	Discuss Standard Area 2 – Placement
2:30 – 3:00	Break
3:00 – 4:00	Discuss Standard Area 3 – Sign Design
4:00 – 4:30	Prepare for US 52/Goodhue Co Rd 9 CICAS intersection field tour and dinner
4:30 – 5:15	Travel to intersection site
5:15 – 6:00	Field tour of intersection site
6:00 – 6:30	Travel to dinner
6:30 – 8:00	Dinner at Black Stallion Grille

Agenda – Day 2

8:00 – 8:30	Recap of Day 1 discussion
8:30 – 9:30	Discuss Standard Area 4 – Message Set
9:30 – 10:00	Break
10:00 – 10:30	Mini-Roundabout Presentation
10:30 – 12:00	Revisit roadmap for developing standards and next steps leading to Workshop #2
12:00	Departures
